

Website Building: Basic Layout

HTML - First web page - Styling

The following exercise contains the following subjects:

- CSS styling

Instructions

Now we know a bit about styling, let's style our web page (3.1_Refactor_with_divs) to make it look more beautiful!

Add at least the following:

- background color or image.
- change the font colors.
- choose a nice font from Google fonts.
- Create some cards.
